

You are cordially invited to attend a networking event on

“Regional Strategy for Biobased Products in the Mississippi Delta”

A comprehensive plan for new agricultural and renewable processing opportunities

Thursday, October 15, 2009

Hosted by:

Mississippi Biomass & Renewable Energy Council
Mississippi Technology Alliance – Strategic Biomass Solutions
Mississippi Development Authority – Energy Division

LOCATION: COPELAND, COOK, TAYLOR & BUSH, P.A.

1076 Highland Colony Parkway (Concourse 600, Suite 100)
Ridgeland, MS 39157

4:00 PM – 6:00 PM

(Complimentary beer, wine and yummy food will be served)

Hear presentations to discuss the conclusions of a five-state study that examined how established industries such as agriculture, biotechnology and chemistry can merge to create a new bioeconomy that is already valued at more than \$140 billion in global sales. The study, led by Memphis Bioworks Foundation, examined potential for agriculture and forestry revitalization through the development of new markets in 98 Delta counties across Arkansas, Kentucky, Mississippi, Missouri and Tennessee.

Registration is complimentary courtesy of groups which sponsored this study including: Delta Council, Delta Economic Development Center, Kengro Corporation, Memphis Bioworks Foundation, Mississippi Biomass and Renewable Energy Council, Mississippi Delta Developers Association, Mississippi Development Authority, and Mississippi Technology Alliance.

Please **RSVP** by **Oct. 12, 2009** (*space is limited so please call early!*)
