Introduction

Overview of Economic Development Incentives

As the state's lead economic development agency, the Mississippi Development Authority (MDA) works to recruit new businesses to the state and help existing employers grow their operations.

Like most other states in the United States, Mississippi offers incentives to prospective businesses and existing employers alike to encourage job creation and additional corporate investment in the state. Businesses typically consider numerous locations when planning to locate a new facility or expand, and Mississippi competes with locations around the world for new business investment. Given this reality, competitive incentives are a necessary component of Mississippi's economic development strategy and are critical to ensuring the state remains a strong contender for new business investment and new high-paying, high-quality job opportunities.

MDA is entrusted with ensuring that grants, loans, tax exemptions, rebates, and abatements are wisely awarded to qualifying industries and produce a return for the state's taxpayers. MDA takes its fiduciary responsibility seriously, and incentives are offered to help make projects that will bring positive returns to the state a reality.

As prospective economic development projects are identified, MDA works to communicate the operational cost benefits and other advantages our state offers global businesses and to understand and help meet companies' workforce training and physical site requirements. As the process moves forward, a clear understanding of each company's business model, financial status, and key decision drivers all help shape whether Mississippi offers an incentive package and what that incentive package includes. The agency also takes into account the level of commitment by the local community being considered and the infrastructure needs of the site when deciding upon the type and amount of assistance provided by the State in support of a new or expanding business that is creating jobs.

In Mississippi, incentives usually are provided in the form of infrastructure assistance, workforce training, and tax reductions, but incentives may also include assistance to defray business costs, as well. In addition to financial incentives, MDA supports businesses by other means, such as making introductions to other companies, assisting with permitting issues, coordinating workforce training offerings, and helping to identify relevant and available sites in the state. This assistance benefits both Mississippi's corporate citizens and the state and requires limited taxpayer resources, while still playing an important role in stimulating investment and supporting job creation.

This document, which is submitted to the governor, the secretary of state, the clerk of the House of Representatives, and the secretary of the Senate each year in compliance with Section 57-1-12.2, Mississippi Code of 1972, as Amended, provides a summary of the programs MDA uses to encourage economic and community development in Mississippi. A significant range in the value of incentives provided per job created or dollar invested will be evident in this report. This variance is to be expected and is attributable to the diverse needs of the many companies that have located or expanded in Mississippi in recent years and the extent to which existing infrastructure and workforce development offerings vary throughout the state. While each economic development project is different and MDA considers many factors when developing an incentive package, in all cases, MDA strives to meet businesses' needs as economically as possible and ensure any incentives offered provide a strong return on investment for the state.

Summary of Incentives Report Contents

A number of programs have been created by the Mississippi Legislature to encourage economic development in the state. Incentive programs include grants and loans to local governments for infrastructure and other community development improvements, capital programs, incentives paid directly to businesses, tax reductions and exemptions, and training resources. These programs are administered by several different agencies within the State.

This report provides summaries of key programs that MDA utilizes in recruiting new businesses to the state and in helping existing Mississippi businesses expand, along with information on the ten primary loan and grant programs most used by the agency and the four incentives MDA administers that provide rebates or tax abatements. Information provided by the Department of Revenue is included in this report for clarity.

Tax Incentive Programs

State Tax Credits and Exemptions

Mississippi offers businesses locating or expanding in the state a number of state income credits and franchise and sales and use tax exemptions. These incentives are maintained by the Department of Revenue (DOR), and since these incentives are taken on the businesses' tax returns, the actual cost of these incentives is not available on a project-by-project basis. However, DOR's Annual Report summarizes the use of several of these credits, and the Annual Tax Expenditure Report the University Research Center at the Mississippi Institutions of Higher Learning compiles also provides an evaluation of the state's tax incentives. The table below summarizes these programs.

Table 1: Mississippi Income, Franchise, and Sales/Use Tax Incentives

Program	Eligible Industries	Incentive Value	Revenue Source
Jobs Tax Credit	Manufacturers, processors, distributors, wholesalers, research and development facilities, warehouses, air transportation and maintenance facilities, movie industry studios, telecommunication enterprises, data or information processing operations, computer software developers, any technology intensive facility, recreational facilities that impact tourism, and final destination or resort hotels with more than 150 guest rooms	An income tax credit equal to a percentage of payroll for each newly created job is available for a five-year period for eligible businesses. A minimum number of jobs must be created to receive the credit. Companies can either use these credits or opt for a job training grant as a direct reduction of workforce training costs.	Foregone Revenue
National or Regional Headquarters Tax Credit	A minimum of 20 new headquarters jobs must be created to receive the credit	An income tax credit is available for a five-year period for each position assigned to the national or regional headquarters of a business created in or transferred to Mississippi. Credits start at \$500 for each new full-time employee, increasing to \$1,000 for each new full-time employee whose salary is 125 percent of the average annual state wage and \$2,000 for each new full-time employee whose salary is 200 percent of the average annual state wage.	Foregone Revenue
National or Regional Headquarters Relocation Tax Credit	A minimum of 20 new headquarters jobs must be created to receive the credit	An income tax credit is available for a five-year period for any company that transfers or relocates its national or regional headquarters to Mississippi from outside the state. The credit is equal to the actual relocation costs paid by the company.	Foregone Revenue

Foregone Revenue

Grant and Loan Programs

The tax incentives outlined in the previous section all result in foregone revenue. Other incentives, such as grant and loan programs, require an appropriation of funds, a federal allocation, or the authority to issue bonds for funding. Most of the incentives provided through MDA are grant and loan programs that fall under this category. This section addresses each of these programs and provides detailed information on the usage of these funds over the past five years. The table below shows the total grants and loans awarded by year and is followed by summaries by program.

Mississippi Major Economic Impact Act (§57-75-1, et. seq.)

The Major Economic Impact Act was created by the Legislature to provide specific incentives for large projects. This special legislation has typically been introduced by the Governor and has been tailored to meet the needs of each entity. The table below shows information about MMEIA projects from the past five years, along with the gross bonding authority approved for them in special legislation, actual spending to date, the number of jobs committed and created, and the companies' investment commitments.

Table 3: Mississippi Major Economic Impact Act Funding Since July 1, 2011

Project	Bonding Authority	Spend to Date	Jobs Committed	Jobs Created to Date	Investment Commitment
Yokohama Tire (2013)	\$130,000,000	\$60,514,317	2,000	510	\$1,000,000,000
Continental Tire (2016)	\$263,000,000	\$240,000	2,500	0	\$1,450,000,000
Topship LLC (2016)	\$11,000,000	\$0	1,000	0	\$68,000,000

Project Summary

Yokohama Tire Company is a global tire manufacturer that announced in April 2013 it had selected West Point, Mississippi, as the site of its newest global manufacturing facility. Yokohama committed to an investment of \$300,000,000 and 500 initial jobs, and future expansions are expected to bring the company's total employment in West Point to 2,000 and its investment to more than \$1 billion dollars. The Mississippi Legislature approved \$70,000,000 in bonding authority for the initial project and provided for a total of \$130,000,000 in bonding capacity for future planned expansions. The company is constructing its administrative offices and training facility and is in the process of ramping up production at its new facility.

Continental Tire the Americas, LLC, also a global tire manufacturer, announced in February 2016 it would locate a commercial vehicle tire manufacturing plant near Clinton, Mississippi, in Hinds County. The company committed to create 2,500 new jobs and make a corporate investment of \$1.45 billion. In support of the project, the Mississippi Legislature approved \$263,000,000 in bonding authority. Construction of Continental Tire's multi-million-square-foot facility is expected to begin in January 2018.

The same day Continental announced its plans to locate operations in Mississippi, Edison Chouest Offshore announced it would locate shipbuilding operations at the Port of Gulfport's new inland port on Seaway Road in Gulfport, Mississippi. The company committed to create 1,000 new full-time jobs at its new Gulfport operation, to be known as TopShip, LLC, and committed to make a \$68,000,000 corporate investment. In support of the project, the Mississippi Legislature approved \$11,000,000 in bonding authority.

With MMEIA projects, MDA has memoranda of understanding in place that are signed by all parties and contain claw-back provisions for any failure on the part of a company to meet its jobs and investment requirements. MDA monitors these projects throughout the agreement period until all obligations are met.

Mississippi Major Economic Impact Act Funding

Grants/Loans committed: \$404 million

Investment generated per grant/loan dollar awarded: \$6.23

Jobs committed: 5,500

Investment committed: \$2.52 billion

:::As noted above, only three projects have been awarded MMEIA funding in the past five years.:::

Mississippi Industry Incentive Financing Revolving Fund (\$57-1-221)

The **Industry Incentive Financing Revolving Fund** was established in FY2010 to provide a fund that MDA could use to incentivize projects that create significant economic opportunities within the state without having to create special legislation each time a new project was identified. This program allows grants or loans to be awarded to companies or local governments in order to meet the specific needs of the project. The use of the funds is negotiated with the company by MDA. Industry Incentive Financing Revolving Fund loans and grants may be used by cities or counties or businesses for site preparation, infrastructure improvements, building construction costs, training or to relocate equipment. The following table shows projects for which awards have been made, actual spending to date, the number of jobs committed, and the private investment committed. No Industry Incentive Financing Revolving Program loans or grants were approved in FY2016.

*The Elevance project will not be moving forward in Mississippi. The FY2015 Incentives Report noted MDA was providing a \$25 million loan in support of the project, based on the project's Memorandum of Understanding. No loan funds were awarded or expended, however, and no loan agreement was executed. The company's projected jobs and investment are not included in the Jobs and Investment Committed totals above, but the Grant Amount total above includes the \$2 million grant awarded to the county in support of the project.

**The FY2015 Incentives Report noted Raytheon and BorgWarner were awarded \$9 million and \$2.5 million grants and were committing to create 230 and 158 jobs, respectively. This report notes the actual grant amounts awarded, which were \$6 million and \$1.41million, as well as the companies' actual job commitments.

***KiOR was projected to create 1,000 jobs and invest \$500 million in Mississippi. Jobs were created but not maintained and the company went into a receivership. Under the KiOR loan agreement, MDA was able to utilize Industry Incentive Financing Revolving Funds to protect MDA's assets at the former KiOR Columbus plant. The funds provided to the KiOR receivership were reimbursed to MDA through the sale of the assets; as a result, the \$3 million MDA expended for the KiOR receivership is not included in the Loan Amount total above.

Mississippi Industry Incentive Financing Revolving Fund

Total bonding capacity: \$468 million

Bonds issued to date: \$388 million

Obligated funds: \$432 million

Jobs committed: 6,862

Investment generated per dollar awarded: \$12.71

::: Cash will be requested as needed from the State Treasurer to meet project needs. Loan funds awarded do not appear in the "investment generated per dollar awarded" calculation above unless the loan is defaulted on, as loan funds are awarded with the requirement that they be repaid:::

ACE Fund (§57-1-16)

The **Mississippi ACE Fund** is designed for making grants to economic development entities ("local sponsors") to assist in funding extraordinary economic development opportunities that promote economic growth in the state of Mississippi. This program is typically used as a "deal-closing fund" and is often used when there is significant competition with other states for projects. These funds can be used to relocate equipment, for specialized training, and for leasehold or building improvements. Local sponsors are encouraged to use these grants in connection with other state and federal programs. The State Legislature enacted the ACE Fund during the 2000 Second Extraordinary Session.

*The Twin Creeks project was projected to create 500 jobs and make a \$132,500,000 corporate investment. Since jobs were not created, neither the project's projected jobs nor investment were included in the Jobs and Investment Committed totals above, but the Incentive Amount Awarded total includes the ACE grant awarded to Twin Creeks.

**Sanderson Plumbing declared bankruptcy. As a result, the company's projected investment has not been included in the Investment Committed total above, but the Incentive Amount Awarded total above does include the ACE grant provided to Sanderson Plumbing.

***Cooper Tire committed to retain 1,300 jobs.

Mississippi ACE Fund

Average state investment per job: \$4,244

Total bonding capacity: \$116,650,000

Investment generated per grant dollar awarded: \$26.97 Available funding in ACE: \$12,500,000

::: For each award, the company is required to enter into a grant agreement which requires it to repay the grant in the event that it fails to create and maintain the jobs to which it has committed. While the ACE Fund has total bonding capacity of \$116,650,000, this includes \$20,000,000 which was passed by the Legislature in the 2014 Regular Session specifically to assist Cooper Tire, as well as \$4,200,000 and \$5,000,000 that were approved by the Legislative in the 2015 Regular Session to assist the City of Louisville and Viking Range, respectively....:

Mississippi Job Protection Act (§57-95-1)

The **Mississippi Job Protection Program** is designed for making grants and loans to at-risk industries to be used for job retention and to improve productivity and competitiveness. A company must qualify as an at-risk industry, defined as a company that has been operating in the state for not less than three consecutive years that is at risk due to foreign competition, to receive assistance under the Job Protection Program. Job Protection grant recipients must use grant funds to retain jobs and improve their productivity and competitiveness, and funds may only be used for projects related to fixed assets, such as building or land improvements and depreciable fixed assets. A business cannot reduce its employment by more than 20 percent if it receives a Job Protection grant.

Development Infrastructure Program (§57-61-36)

The **Development Infrastructure Program (DIP)** provides grants to finance infrastructure projects that promote economic growth throughout the state. Funding from this program can be used by municipalities and counties to assist with the location or expansion of businesses. DIP funds may be used only to construct, renovate or expand publicly owned buildings and publicly owned infrastructure, such as drainage systems, water supply or sewage systems, roads, bridges, rail lines, pipelines, or energy facilities related to power generation and distribution. The goal of the program is job creation. Typical industries eligible under this program include manufacturers, warehouses and distribution centers, research and development facilities, telecommunications and data processing facilities, and national or regional headquarters.

Development Infrastructure Program (DIP)

Average investment in public infrastructure per job: \$5,293 **Available funding:** \$9,698,405
Investment generated per grant dollar awarded: \$34.22 **Jobs committed:** 4,060

::: DIP is MDA's primary state-funded option to build and repair necessary publicly owned infrastructure for new and expanding businesses. Each company is required to enter into an agreement that requires the company to repay the grant in the event it fails to create and maintain the jobs to which it has committed. Companies are not required to make an investment commitment, and some companies did not report additional investments made. :::

Economic Development Highway Program (\$65-4-1)

The **Economic Development Highway Grant Program (EDH)** is designed to assist political subdivisions with highway projects that encourage private companies to engage in "high economic benefit" projects within their areas. The purpose of this program is to promote industrial and other significant development in the state of Mississippi through the construction and/or improvement of highways in areas that demonstrate actual and immediate potential for the creation or expansion of major industries or other significant development. The highway or highway segment to be constructed must be necessary to ensure adequate and appropriate access to a proposed company project for the purpose of encouraging its location within a political subdivision.

Average investment in public infrastructure per job: \$19,461 **Available funding:** \$2,727,994
Private investment generated per grant dollar awarded: \$32.18 **Typical minimum investment:** \$70,000,000

::: EDH is MDA's primary state-funded option to build access roads for large, capital-intense projects. For each award, the local unit of government is required to enter into a grant agreement, which requires it to repay the grant in the event the development fails to invest the minimum statutory amount. :::

Rural Impact Program (§57-85-1)

The **Rural Impact Fund Grant Program (RIF)** provides funding for publicly owned infrastructure needs to assist with the location or expansion of businesses. To be eligible for RIF assistance, municipalities must have a population of 10,000 or less and counties must have a population of 30,000 or less according to the most recent federal decennial census. Eligible projects include public building construction, rehabilitation, or repair, sewer system improvements, improvements to transportation systems directly affecting the site of the proposed business, site preparation, and the acquisition or development of real property or improvements to real property. Eligible projects must have a direct connection to a business location or expansion. Typical industries that can benefit from RIF-funded public infrastructure improvements include manufacturers, warehouses and distribution centers, research and development facilities, telecommunications and data processing facilities, and national or regional headquarters.

Existing Industry Productivity Loan Program (\$57-93-1)

The **Mississippi Existing Industry Productivity Loan Program** provides loans to existing industries that have been operating in the state for at least two years and meet minimum criteria established by MDA. Loan funds may be used to finance long-term fixed assets, such as land improvements, equipment purchases or building construction or improvements, or to refinance loans that were used to finance fixed assets. An existing industry that accepts a loan under this program cannot reduce employment by more than 20 percent through the use of the long-term fixed assets for which the loan is granted. MDA conducts a financial analysis of the business or industry requesting the loan. Guarantees are required on all persons or entities with 20 percent or greater interest in the company.

::: Due to issues related to access to capital for a number of Mississippi industries, this program has been used to assist companies with fixed-asset financing. This program is not a revolving loan program; all payments are used for debt service. :::

Workforce Training Fund (\$57-1-401)

The **Workforce Training Fund** allows for grants to be made to assist companies to offset training needs that are not met through the community college system and WIN Job Centers. These funds can be used to reimburse travel expenses for employees who need to be trained at other facilities, augment community college funds, or provide on-the-job training dollars for new jobs that do not qualify for the federal On-the-Job Training program, such as those jobs moved to Mississippi from out of state. Grant funds are awarded directly to the community colleges, local workforce areas, or universities providing training on behalf of companies that are creating jobs and have training needs.

Community Development Block Grant Program

The **Community Development Block Grant (CDBG) Economic Development Program** is a grant program available to fund publicly owned infrastructure from funds provided through the U.S. Department of Housing and Urban Development. Funding from this program can be used by municipalities and counties to assist with the location, expansion, or retention of businesses. Job creation is the goal of the program. CDBG requires that at least 51% of the jobs created must be made available to persons of low and moderate income as determined by the U.S. Department of Housing and Urban Development. Typical industries eligible under this program include: manufacturers, warehouses and distribution centers, research and development facilities, and telecommunications and data processing facilities.

*Multiple programs may be used to assist a project. In calculating the total Incentive Per Job and Ratio of State Funds Provided to Other Investment, jobs and investment for projects receiving assistance through more than one program are only included once.

**Because loan funds must be repaid to the State, IIFRF loans and EIB loans are not included in the Amount of State Funds Awarded column above. Only loans that are defaulted on are included in the Amount of State Funds Awarded column and in the Ratio of State Funds Provided to Other Investment.

CUMULATIVE KEY PROGRAM RESULTS FY2012 THROUGH FY2016:

Total Grants and Loans Funded: 405
Total State Funds Awarded: \$707,216,301

FUND TO INVESTMENT RATIO:

For every dollar the state commits towards an economic development project, \$8.88 is invested from other sources contributing to local and state economies.

The following table shows the average annual usage for each program over the five-year period covered by this report. It should be noted that the Industry Incentive Financing Revolving Fund is only utilized for large economic development projects that create significant economic opportunities in the state. Annual use of this fund varies significantly year to year.

Other Grant and Loan Programs

In addition to the ten programs listed above, MDA administers an Airport and Port Loan Program, an Agribusiness Loan Program, an Energy Loan Program, a Sweet Potato Loan Guaranty Program, and a Small Business and Existing Forestry Industry Loan Program, as well as a number of community development programs to support infrastructure and other community-based needs. MDA also works with eligible entities that make loans through the state’s various minority and small business loan programs. Each of these programs are revolving in nature and have no real need for additional capacity at this time.

Closed-Out Projects

The following projects have met contractual requirements and have been closed out by MDA in FY2016:

Cameron International	Pioneer Community Hospital	Abby Manufacturing Co.
BorgWarner (2012 expansion)	Teters Floral Products	Barefoot Carriers
Southern Diversified Industries	Main Street Casual Living	Koch Foods
McNeely Plastics	G&G Steel	Limoss USA & Advanced Innovations

Norfolk Southern Railroad (multimodal facility)	Eaton Custom Seating	Gulf Islands Water Park
Rives & Reynolds Lumber	Tallahatchie General Hospital	
Haworth, Inc.	Universal Services, LLC	
Oil-Dri, Inc.	Love’s Travel Stops	

Tax Rebate and Investment Credit Programs

While tax incentives result in foregone revenue, there are a number of programs administered by MDA that require direct payment back to the incentive recipient or a reduction in current tax collections due to credits issued for investment. The following programs are funded through reductions in current tax revenue.

Advantage Jobs Rebate Program

The **Advantage Jobs Incentive Program** is a rebate program designed to encourage businesses that create 25 new quality jobs to locate in the state. Jobs must meet or exceed the average annual wage of the state or the county in which the company locates, whichever is lower. The Advantage Jobs Incentive Program provides for a rebate of 90 percent of Mississippi payroll taxes withheld to qualified employers for a period of up to 10 years. This incentive is available to businesses that promise significant expansion of the economy through the creation of jobs. This rebate is paid for a period of 10 years.

Advantage Jobs Rebate Program: While MDA certifies companies meet the program requirements, the Department of Revenue validates job creation commitments and makes payment for each applicant on a quarterly basis. Information about actual payments is not available since payments are tied to the taxpayer's withholding tax returns.

Tourism Rebate Program

The **Mississippi Tourism Rebate Program** is designed to provide a rebate to new tourism-oriented projects within the State of Mississippi. The Mississippi Tourism Rebate Program allows a portion of the sales tax paid by visitors to the eligible tourism-oriented enterprise project to be paid to the applicant to reimburse eligible costs incurred during the construction of the project. An applicant may receive 80 percent of the eligible sales tax revenue collections from a project for up to 15 years or until the applicant has recouped 30 percent of the total project cost, whichever occurs first.

TOTAL REBATE PAID			\$34,148,577	\$395,047,220

This rebate is paid by MDA semiannually, based on information provided by the Department of Revenue. Funds are diverted from the actual sales tax collections each month into a rebate account for this specific purpose. No further payments will be made to the Tupelo Automotive Museum, the Gulf Islands Water Park, and the Bloomfield Development (Trustmark Park/Bass Pro), which were approved in 2002, 2003, and 2004, respectively; the rebate period expired for the Tupelo Automotive Museum and Gulf Islands Water Park, and the Bloomfield Development has received the maximum rebate possible. The Gulf Islands Water Park can be found on the list of MDA projects that closed out in FY2016 found on page 26; the Tupelo Automotive Museum and Bloomfield Development had closed out previously.

Motion Picture Rebate Program

The **Mississippi Motion Picture Incentive Program** provides a cash rebate on eligible expenditures and payroll and provides sales and use tax reductions on eligible rentals/purchases. This program is available for nationally distributed motion pictures, television programs, DVDs, documentaries, short films, commercials or computer or video games, including animation and production utilizing new technology. To be considered a nationally distributed film, a project must be intended for theatrical, broadcast, festival screening, streaming video, or Internet delivery. There is a \$50,000 minimum Mississippi investment that is required per project, as well as a \$10,000,000 per project rebate cap. There is a \$20,000,000 annual rebate cap, as well. There is no minimum requirement for production days or percentage of production spends. A production is eligible for a 25 percent rebate of its base investment (local spend) in Mississippi. The base investment is determined by production expenditures in Mississippi. A production is eligible for a 30 percent cash rebate on payroll that is paid to resident cast and crew members whose wages are subject to Mississippi income tax withholding and for that portion of their salary for the project up to and including \$5 million.

A production is eligible for a 25 percent cash rebate on payroll paid to non-resident cast and crew members whose wages are subject to Mississippi income tax withholding and for that portion of their salary for the project up to and including \$5 million. A production company may receive an additional rebate of five percent of the payroll paid for any employee who is an honorably discharged veteran of the United States Armed Forces. For purposes of this program, payroll means salary, wages, or other compensation including related benefits paid to employees upon which Mississippi income tax is due and has been withheld.

All films approved for the Motion Picture Rebate Program are evaluated by MDA's Film Office. Based on the budget submitted, the film is certified for a maximum rebate. After the completion of the film, the Department of Revenue verifies expenditures and pays the rebate to the production company. For FY2016, \$11,431,243 of the year's \$20,000,000 allocation was approved for potential rebates.

Mississippi Investment Tax Credits Program

A credit to Mississippi income or insurance premium tax is available for eligible investments made by Community Development Entities (CDEs) in designated low income census tracts in the state, as defined by the U.S. Census Bureau. These credits are state credits that act as companion credits to the Federal New Markets Tax Credits (NMTC) Program. Mississippi allows a state credit equal to 24 percent of the Qualified Equity Investment (QEI) in addition to the credits awarded through the federal program. Equity Investment Credits are calculated as 8 percent of the QEI and are available as of the state credit allowance date and annually for two additional years.

New Markets Tax Credit program credits have generated \$4.69 of private investment for each tax credit dollar awarded. Credits are based on a Mississippi investment being maintained for a minimum of seven years, as required under the federal program. The maximum investment eligible for credits on any project cannot exceed \$10,000,000. The total Mississippi Equity Investment Credits that can be awarded is capped at \$15,000,000 per year.

Conclusion

Economic development is a highly competitive endeavor. In most circumstances, multiple locations in multiple states could meet a company's operational needs. To maintain a competitive position among other states vying for economic development projects and to differentiate Mississippi as a business location, our state must offer relevant incentives to prospective businesses and existing employers contemplating expansions. Competing states have strong incentive offerings and a number of neighboring states, including Alabama, Louisiana, and Florida, have actively strengthened their incentives offerings in recent years. Given these realities, fully funded incentive programs are vital for Mississippi to adequately compete for new jobs and investment.

The financial assistance MDA offers businesses creating jobs in the state typically takes the form of infrastructure funding or workforce training, meaning that in most cases, State funding in support of economic development goes toward further strengthening our state's infrastructure assets and investing in our workforce. State financial assistance for economic development projects also includes tax reductions and, in some cases, assistance for business relocation costs, as well.

MDA's staff works diligently to ensure the economic incentive programs under the agency's direction are administered effectively and judiciously. We are mindful that the programs we administer are funded by taxpayer dollars, and we are committed to adhering to the highest standards in our work to recruit new investment to the state and help Mississippi's existing employers grow and prosper.

Mississippi's incentives are producing positive returns on investment. They are helping create thousands of high-quality jobs and are attracting hundreds of millions of dollars in new capital investment to our state, contributing to Mississippi's economy today and to our future prosperity.
